Experience

- ▶ **PHP Developer**
Brahmastack Technologies Pvt Ltd, Jaipur.
July 2023 – July 2024

Developed dynamic web applications using PHP, MySQL, HTML, CSS, and JavaScript, JQuery, Ajax and Cakephp , adhering to modern coding standards and best practices. Collaborated with cross-functional teams to gather requirements, and implement features that met client specifications. Implemented responsive web design techniques to ensure optimal user experience across various devices and screen sizes.
- ▶ **Web Development Intern**
PHN Technology Pvt Ltd, Pune.
April 2023 – June 2023

During my two-month internship, I developed a solid foundation in HTML, CSS, and JavaScript, honing my skills in front-end web development. I utilized HTML to structure web pages, ensuring semantic markup for accessibility. With CSS, I styled and formatted these pages, mastering techniques for layout design, responsiveness, and visual aesthetics. Additionally, I leveraged JavaScript to add interactivity and dynamic functionality to websites, enhancing user experience through features like form validation and DOM manipulation.
- ▶ **Project**
House Jet -Real Estate (housejet.com)

Built interactive real estate solutions for HouseJet, employing PHP, MySQL, HTML, CSS, JavaScript, jQuery, Ajax, and CakePHP. Followed modern coding standards and best practices to deliver high-quality features in collaboration with cross-functional teams. Used responsive web design to ensure excellent user experiences across all devices. Integrated various third-party APIs and libraries to boost application capabilities and user engagement. Regularly updated skills and knowledge to incorporate the latest technologies and development practices.
